

Rock Lake Improvement Association wants to take its *Making Waves* column in a new direction by having more participation by the public. It will be a Q and A format, and all of you interested in Rock Lake are invited to submit questions. We will do our best to provide answers, either by board members, other RLIA members, or from professional sources. We hope to tap into the expertise of local specialists and also publications by state agencies and associations, such as Wisconsin Lakes Association, to which RLIA belongs.

There are several ways you can participate. The website, www.rocklake.org, provides a means for emailing the board. And you can always do it the old-fashioned way by sending your question to P.O. Box 255 or, even more primitively, by talking to a board member in person.

Hope to hear from you!
